EXPLORING ART AND NATURE

Art and nature are highly treasured in Furesø and we have made an effort to combine the two. Farum Søsti is a 10 kilometer trail around Farum Lake which offers a unique nature. For each kilometer, the route is marked with a stone that bears a relief of an animal or a plant which is common to the area.

The art work was carved by the local artist Olav Johannisson. If you follow the route in a clockwise direction, you will also pass stones with arrow markers showing the way.
