

UNIQUE PLACES TO VISIT

RITEÅ ÄLVSBYN STORFORSEN

The Pite River Valley is located in the southern region of Swedish Lapland and this touring route describes the area from the municipalities of Piteå and Älvsbyn, across the arctic circle and on to Jokkmokk. Piteå council is located by the coast and is the largest municipality with a population of 42,000, of which 22,000 live in the main town, Piteå. There are large sawmills, pulp and paper mills in the municipality. Forestry is also an important industry in the area and it shares more or less the same areas as those used for traditional reindeer herding.

The highlights of this route include the Piteå archipelago, a part of the greater Swedish Lapland Archipelago which has over 4,000 islands. The city of Piteå has excellent shopping, activities and accommodation in a range of styles. Here you will also find a Hotel, Cabin & Camping Resort located on the coast overlooking the archipelago called Pite Havsbad.

The first half of the overall journey from Piteå to Jokkmokk follows the Pite river, through forest land, and past the mighty Storforsen falls, Europe's largest rapids. From Storforsen to Jokkmokk you will journey through a region of lakes and forest and cross the arctic circle before arriving at the village of Jokkmokk. Jokkmokk has the annual winter market starting on the first Thursday of February each year for over 400 years attracting thousands of people for music, exhibitions and trade.

DON'T MISS:

- Sand between your toes at the beach on the coast of Piteå.
- The roaring rapids of Storforsen water fall.
- Shopping of local products
- The different tastes of Swedish Lapland served up at local restaurants or cafe, take a Swedish fika.
- To take a stroll in the forest and soak up the sense of freedom.
- Stay up late and enjoy the northern lights or the light summer nights.

RITEÅ CITY

Piteå is located on the southern coast of Swedish Lapland, at the mouth of the Pite River and not far from the arctic circle, a place of contrasts. Light and darkness, warmth and cold, the mountains and the archipelago. Sweden's highest water temperatures are often recorded at Pite Havsbad which is known as the Nordic Riviera - hard to believe if you heard the ice crunching against the hull of the icebreaker Arctic Explorer a few months earlier. The sea of the Gulf of Bothnia also serves as an area for skating, dog sledding and snow mobile safaris in the winter months. You are almost sure to have snow here from the Christmas season.

Summertime with lazy days on the beach is varied with activities and events for all ages. Piteå Tourist Center has up to date information regarding all of the local experiences.

Piteå Tourist Center: +46 (0)911-933 90, www.pitea.se/en

ATTRACTIONS

RITEÅ ARCHIPELAGO

There are 550 islands in the Piteå archipelago and over 530 kilometers of coastal beaches, of which 250 km are island beaches. The longest unexploited beach is 13 kilometers. Piteå archipelago is unique. The combination of the land rise, the brackish water environment, largely unexploited areas, the shallow sea and beach areas, provide very special environment. The archipelago reaches all the way to the town center with harbors in the north, south and east. The visitor center has up to date information on timetable for transfers to the islands. Activities available include kayaking, canoeing, hiking, fishing and saunas are often available alongside rental cabins.

RITE HAVSBAD - OCEAN BATH

Pite Havsbad is a camping, cabin and hotel resort with a range of activities for all ages including an indoor Water Park. Pite Havsbad is also one of the biggest tourism and conference centers in Northern Europe. Whether you're looking for relaxation, excitement or entertainment you will find the facilities here. Relaxing time on the beach is spiced up with activities such as the Skeppet (The Ship), golf, go-carts, beach volleyball and street basket.

ÖJEBYNN OLD CHURCH TOWN

The village that grew up around the church consists of cottages used for overnight stays by members of the local congregation who often travelled long distances to attend services. In June or July each year a church market is held in accordance with ancient tradition. The oldest parts of the medieval stone church date back to the fifteenth century and the clock tower is probably the oldest building in Norrbotten. The authentic and well-preserved church village and church village museum are open for visits during the summer.

RITEÅ BOAT MUSEUM

People have been sailing and fishing along the coast and in the archipelago for hundreds of years. Step back in time and find out more at the Piteå Boat Museum.

SHOPPING

Piteå has a long tradition as a regional shopping center. There are two malls in the center of Piteå, Gallerian and Småstaden along the pedestrian street (Sweden's first) you will find both larger chains and small unique shops. At Rabarber Konsthantverk you will find local art and handicraft products for sale. Open air cafés in a pleasant small town environment complete the experience. Back City, with its 25 stores and its close location to the city center is an attractive retail area where you can find something for the whole family from the wide range that our stores offer. You can reach us easily by car or bus and there is always free parking.

RITEÅ TO ÄLVSBYN

Distance 52 km. Travel time approx 40 min.

ATTRACTIONS

STORMYRBERGET

Feel the scent of new-mown hay, a soft horse muzzle against your hand. Enjoy a trip to the forest landscape or a delicious meal made from on-farm products. Stormyrberget is a farm stay and guesthouse just to the north of Piteå. Set in the rolling farms lands close between the river and the forest lands. Ideal for both a day visit with lunch or stay a night or two in one of the farm cottages. In both cases you will feel like you are visiting friends as the family makes you welcome and part of their daily farm life. Activities available on day visits include horse riding for children, beginners or advanced riders, guided walks to the mountain and forest, farmers golf and fishing. For those staying a night or two you also have access to fishing gear, cycling, 4 wheel drive and the sauna.

SIKFORS KONFERENS AND FRITIDSBY

Sikfors Konferens and Fritidsby is a hotel, cabin, camping and holiday village in a beautiful setting on the bank of the Pite river. There is a very well appointed restaurant and bar attached to the hotel or you can self cater in your cabin or camping site. Activities include fishing, mini golf, sauna and hottub, outdoor swimming pool and local museum. The menu here always includes the local speciality Pite Pall.

ÄLVSBYN

Softly nestled between forested mountains next to the river, Älvsbyn is called pearl of Norrbotten. This originated in an analogy between Älvsbyn's top down view and a gemstone, with a glittering azure strip on one edge encased by high and steep mountains. Wide open spaces, large old growth forest, open landscapes, lakes, mountains and the river, yes a lot can be found here. www.alvsbyn.se/visit

ATTRACTIONS

CHURCH VILLAGE

In connection with the church was built some 30 church cottages for the villagers to facilitate visits for important weekends. Most of the cottages were built during the 1800s. The church cottages are owned and still used by parishioners.

POLARBRÖD

During 1950 a small family owned café and bakery was started with traditional bread from the region. Soon it grew and now the bakery distributes their bread to Finland, Denmark, Britain, Germany and France.

ÄLVSBYHUS

The north's largest producer of prefabricated houses of wood. In 40 years they have delivered houses to more than 24,000 families in Scandinavia.

ÄLVSBYN TO STORFORSEN

Distance 45 km. Travel time approx 45 min.

ATTRACTIONS

RACKBERGET NATURE RESERVE

Rackberget is a mountain that lies immediately to the north of Älvsbyn. Many rare plants grow on the hillside, which is a designated nature reserve. There are marked trails and established barbecue areas on the mountain, which is popular with locals, and conveniently situated for visitors. This is understandably popular with rock climbers. Rackberget is a nature reserve with its mountain peak is 254 meters above sea level. On the steep, sunny south cliff are several demanding plants: Boneberry, mezeron and lily of the valley. Location is just outside Älvsbyn, along road 374 there are marked trails and barbecue areas.

MANJÄRV

The cultural village of Manjärv is located between Älvsbyn and Storforsen. Guided by the brochure "Walk 7,000 years in one hour", you will reach a grave from the Stone Age, where the oldest man of Scandinavia was buried and Sägforsen where king Karl XIV Johan owned a saw mill. Manjärv gathers 500 years of traditions in a unique cultural environment.

SWEDISH FIKA

A social cup of coffee

Swedes prefer not to translate the word fika. They don't want it to lose significance and become a mere coffee break. It is one of the first words you will learn when visiting Sweden, right after tack (thank you) and hej (hello).

Fika is much more than having a coffee. It is a social phenomenon, a legitimate reason to set aside a moment for quality time. Fika can happen at any time, morning as well as evening. It can be savoured at home, at work or in a café. It can be with colleagues, family, friends, or someone you are trying to get to know. It is a tradition observed frequently, preferably several times a day. With local recipes we welcome you to take a Swedish fika in our area.

Accompanying sweets are crucial. Cinnamon buns, cakes, cookies, even open-faced sandwiches pass as acceptable fika fare. It comes as no surprise that Swedes are among the top consumers of coffee and sweets in the world - or that Swedes appreciate the good things in life.

LOOK FOR THIS SYMBOL:

EVERY OPEN HOUR YOU CAN FIND HOMEMADE SWEDISH FIKA.

STORFORSEN

Visiting Storforsen rapids is a breath-taking experience for all the senses. In June, the water flows by at 850 m³/s and of course, it makes an impressive sight. Also the sound of the rapids is remarkable, and when you close your eyes you can sense the power of the rapids.

ATTRACTIONS

STORFORSEN

The rapids at Storforsen are the largest in Europe and one of the most impressive sights in the region. The area around Storforsen is well provided with footpaths and walkways that allow the visitors to look at the rapids safely from the edge of the river. Away from the main river it is possible to walk amongst smaller streams, natural pools and rapids. The Storforsen rapids are a part of Pite River, one of the four unharnessed "National Rivers" of Sweden. The rapids are the biggest in the Nordic countries, and one of the biggest in Europe. Here the water falls 82 m in 5 km, in the last 600 m the fall is 50 m. Pite River, like so many other rivers has been used for transport, here mainly logs. Because of the logging the river has been cleared and floating channels have been built. Originally, the river was approximately 400 m wide, but after the last floating channel was built in 1945, it is only about 200 m wide. The former river bed can be seen on the way out to the rapids, with fascinating water-polished rocks and giant's cauldrons.

PICNIC AREA / LOOKOUT

On the way up to the lookout area will you pass the old river bed and delta, which contains a rich variety of botanical species, including some orchids like fairy slipper and yellow lady slipper. At the lookout at the top of the falls you can visit the Forestry museum and learn how it used to be during the logging period. Here you can also find a café. It is also possible to shop for one or more souvenirs in a cute little shop nearby.
